

READY,
STEADY,
Quilt!

Patchwork doesn't have to take days or years. In fact, quilt-as-you-go will have you whipping up projects faster than you can say its name

Quilting can be a tricky technique to master. While there's no denying it's a highly meditative and rewarding activity, you do need a lot of spare time, space and patience to really get somewhere. That's why we love quilt-as-you-go. You still get that buzz from stitching together a unique and beautiful piece of artwork, but there's also room to freestyle. Plus, you can complete projects much faster. Keen to learn more about this nifty pastime, we caught up with Jera Brandvig from quiltingintherain.com to uncover her top tips. Over the page, we show you how to make a gorgeous pair of slippers using quilt-as-you-go – your feet won't thank you enough.
